**CATTLE.**—The week opened with a good, large run of cattle for a Monday, the receipts being rather favorable, but they were well aged. There was a good many marketable corned beefes in the yards, but the proportion of feeders was considerably larger than usual.

As regards values on live cattle, the leading features of the situation were decidedly on the bear side and against the receiving interests. The general decline in feeders was the reported decline at Chicago and Kansas City and that was supplemented by the fact that the week's starting out with such liberal receipts, the price of live cattle receipts to come. Under such conditions the buyers seemed prepared to pound prices which the market would not stand. The market was not only sold at steady prices, but they sold freely. The movement was sufficient to effect a real market clearance, practically everything being sold by 10 o'clock in the morning or soon after. Beef steers sold at the way from \$4.00 to \$4.50, but feeders sold at \$4.00 to \$4.50.

Cows and heifers were also in good demand and sold freely at Saturday's prices, the market not so far as could be seen, on Friday and Saturday desirable cattle that described sold out of sight, but today, with more cattle on sale, buyers seemed to feel that the market had run its course and that it was time to cut to half. The result was a decline of 10¢/15¢ in values, the heavy cattle feeding the drop most keenly. Representative sales:
